GURNEE, IL, April 3, 2014 – Weiman Products announced today that the company will close its Ashland City, TN facility by August 15, 2014 as it consolidates operations into its Gurnee, IL facility. The Ashland City facility was included as part of assets acquired by Weiman Products from the Homax Group, Inc. in a transaction which closed in January of this year.

In addition to its corporate general offices and research and development laboratory, the company has recently expanded to approximately 260,000 square feet of production, blending and warehouse space at the Gurnee, IL facility. The consolidation ensures the company's ability to fully utilize capacity of the facility in Gurnee, IL, increase efficiencies, and better serve its customers.

"After careful analysis and consideration for our talented workforce, we made the difficult decision to close our Ashland City, TN facility," said Carl DeMasi, President and CEO of Weiman Products. "We will be taking steps to do everything we can to ensure a smooth transition for the affected employees."

The closure will impact 55 employees, all of whom will be offered severance pay, and transitional support, including the opportunity for employment at the Gurnee, IL facility. The company will work with local businesses, government agencies, and communities to provide job search assistance.
